## ROSTOCK HARBOUR

### Facilities for :

\* bulk \* dry cargo \* ro-ro \* liquid \* gas \* container \* passenger \* multipurpose \*

### - A General Overview -

## The harbour(s) of Rostock consists of:

1. Seehafen Rostock (also named „Überseehafen“ - „Overseasport“) including Oil Harbour.
2. Rostocker Fracht- und Fischereihafen (also named „RFH“).
3. Stadthafen (Old City Port).
4. Warnemuende Passanger Quays (Cruise Liner Terminal).
5. Metallaufbereitung Rostock (also named „MAB“).
6. YARA Rostock (Chemical Harbour).
7. Muesing Kai
8. Maritimes Gewerbegebiet Gross Klein (also named „MAGEB“)
9. Yachthafen Hohe Duene

## Port Authority

Hafen- und Seemannsamt Rostock

PO-Box 48 10 46

18132 Rostock

Tel: +49 (381) 381 8710

Fax: +49 (381) 381 8735 or +49 (381) 6740 291

VHF ch 10 call „Rostock Port“

Internet: <http://www.rostock.de/hafenamt>

E-Mail: [port.authority@rostock.de](mailto:port.authority@rostock.de)

Contact: Mr. Stefan Rathmanner - **Harbourmaster** –

## Location

Rostock is situated in the W-part of the Baltic Sea, at the mouth of the river Warnow,

Lat: 54°09'N Long: 012°06'E.

Rostock is the principal port of Mecklenburg-Vorpommern. The yearly handling results are appr. 26 million tonnes.

**Tidal range and flow:** Tide is imperceptible, but strong winds from S directions may lower and gales from N directions may raise the water level up to +/- 1.5m.

**Weather:** *Prevailing winds:* W'ly.

**Ice:** The river and the shallow waters in the estuary normally freeze in the winter, but the channels are kept open as long as possible, and the ports are seldeom closed.

**Density:** The water in the estuary and in the port of Rostock is fresh to brackish with a density varying from 1006 to 1009 kg/m<sup>3</sup>.

# Ports Guide of Rostock Germany

---

## Restrictions and Shipmax

No obstacles, no locks, bridges etc.; no restrictions for entering at night normally.

Generally the Port of Rostock can accommodate vessels of LOA 295m and or beam 45m ; draught 13,00m, but vessels exceeding LOA 230m and or beam 36m and or draught 12,00m are requested to obtain permission from Waterway and Shipping Board. Vessels bound for Fracht- und Fischereihafen exceeding LOA 125m and or beam 17,5m and or draught 7,50m are also requested to obtain permission from Waterway and Shipping Board.

## Anchorage

In the roads, 4-6nm NW of Warnemunde, there are two recommended anchorages in depths of 13-17m, bottom mud and sand. They are unsheltered from W, N and NE winds. Anchorage No.2 is reserved for tankers ,vessels with dangerous cargo and for bunkering; Anchorage No.1 for other vessels.

## Traffic Schemes

**Sea buoys, fairways and channels:** River Warnow is approached from the Bay of Mecklenburg through a buoyed and lighted fairway channel, 5nm in length, 14,50m depth, leading to Warnemuende and a sea channel leading to Seehafen Rostock.

## Traffic Organisation Service (VTS Centre)

„Warnemuende Traffic“, situated in Warnemuende, continuously controls all movements between the approach buoy and the Rostock harbours and should be contacted via VHF ch 73 as soon as possible (normally two hours before approach buoy).

Tel: +49 (381) 206 71 141

Fax: +49 (381) 206 71 145

## ETA

ETA notice required as soon as possible as leaving last port or 10, 7 and 2 days notice, stating name of vessel, call sign, nationality, tonnage, length, beam, draft and security level.

## Pilot

1. Compulsory for tankers (oil, chemical, gas).
2. Compulsory for vessels in an area N of Berth No 60 (Überseehafen) with following dimensions:  
Loa 100.00m or Breadth 15.00m or Draught 7.50m and more.
3. Compulsory for vessels in direction of Rostocker Fracht- und Fischereihafen with following dimensions:  
Loa 80.00m or Breadth 11.00m or Draught 6.00m and more.
4. Compulsory for vessels in an area south or east of Rostocker Fracht- und Fischereihafen with following dimensions:  
Loa 60.00m or Breadth 10.00m or Draught 4.50m and more.

Pilotage exemption are possible in area N of Berth No 60 for vessels up to:  
length over all 120.00m, breadth 19.00m and draught 8.00m.

The Pilot Station is situated in Warnemunde. Pilots are available throughout 24 hours. Pilot station monitors VHF ch 14, call "Warnemuende Pilot". Send message three hours before pilot position with following contents:

Name of the ship, call sign, length over all, breadth, gross tonnage, draught, port of call, ETA to boarding position.

Pilot will board by pilot boat near following positions:

- |  |                                  |
|--|----------------------------------|
| - Vessels with a draught 11.58m and more | Lat 54°17.0' N, Long 012°00.0'E  |
| - Vessels with a draught 06.50m and more | Lat 54°14.5' N, Long 012°02.3'E  |
| - Vessels with a draught not more 06.50m | Lat 54°12.5' N, Long 012°02.4'E. |

The distance from farthest boarding point to anchorage No. 1 is 3sm; to Rostock-Warnemünde break waters 6.5sm, to turning bassin Überseehafen 8,5sm, to Stadthafen 13sm.

Helicopter pilotage operations are normally not undertaken.

## **Cargo Handling and Facilities**

The above ship berths are available on more than 9.000 meters of quayside. The port is equipped with modern ship handling equipment and special facilities for example:

Ship unloaders for discharging coal; Cranes with hoppers for discharging coal, fertiliser, road building materials;

One ship loader connected to the warehouse by conveyor belt for loading fertiliser (urea) and calcium ammonium nitrate (CAN);

Two ship loaders (grain terminal) connected to the silos of the different shippers;

One Terminal with bulk-in-bags out facility, palletizing and see-side connection to the ship by crane belt conveyor.

## **Storage Capacities and Loading and Discharging Rates**

See: [www.rostock-port.de](http://www.rostock-port.de)

## **Ferry Services**

The port has a ferry terminal covering 200 000 m<sup>2</sup> with six berths offering several times daily routes to Gedser (Denmark), Trelleborg (Sweden), Hanko and Uusikaupunki (Finland) and Ventspils (Latvia).

Two of the berths are also equipped to handle railcars. A 1km long road flyover is linking the ferry terminal with the expressway A19 Rostock-Berlin and A20 (coastal expressway).

## **Liner Services**

There are liner services in the baltic region (Finland, Latvia) and Norway; regular tramp connections to Great Britain and USA.

## Ports Guide of Rostock Germany

---

### **2. Rostocker Fracht- und Fischereihafen (RFH):**

The Port situated at the W bank of the river Wamow, halfway between Seehafen Rostock and Stadthafen used to be the home port of Rostock's large fishing fleet. In the recent years considerable changes have taken place and the port is now able to handle a wide variety of goods, bulk cargoes, refrigerated cargoes (cold stores with a capacity of 12.000t), general cargoes, etc. The port offers berths for vessels drawing up to 7.92m in draft.

**Port Operator:** Rostocker Fracht- und Fischereihafen GmbH
